 - World Championships in Athletics in Beijing (2015) Sweden, Denmark, Estonia

2 **Running Course**

(1) Doki River

oLength: Approx. 15km

oCourse Condition: Mostly maintained promenade

oAccess: 15 min by walk to the closest point from hotel

oLength: 2km a lap

o Course Condition: Mostly maintained promenade

Access: Next to the Stadium

(3) Marugame Municipal Comprehensive Athletic Park

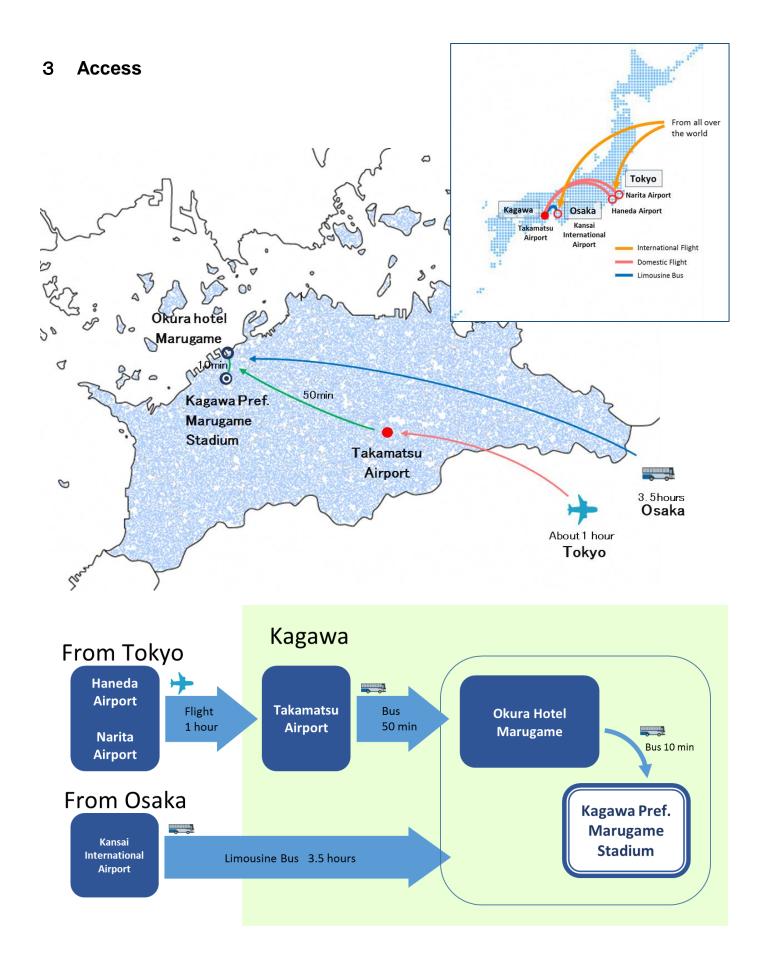

oLength: 400m track

Surface : En-tout-cas

oAccess: 5 min by walk from Kagawa Pref. Marugame Stadium

4 Pre-Training Camps in Kagawa Prefecture

(1) Previous Pre-Training Camps

Stadium: Kagawa Prefectural Marugame Stadium (Athletics)

Lake Fuchu Canoe Course (Canoe, Rowing)

Accommodation: Okura Hotel Marugame

Event	Countries	Sport (Stadium)	Number of People
2007 World Championships in Athletics in Osaka	Sweden, Denmark, Norway, Finland, Estonia 4 others	Athletics (Kagawa Pref. Marugame Stadium)	154 in total (89 athletes 65 staff members)
2008 Beijing Olympics	Sweden, Denmark, Finland, Estonia, 2 others	Athletics (Kagawa Pref. Marugame Stadium) Canoe, Rowing (Lake Fuchu Canoe Course)	69 in total (36 athletes 33 staff members)
2015 World Championships in Athletics in Beijing	Sweden, Denmark, Estonia	Athletics (Kagawa Pref. Marugame Stadium)	36 in total (15 athletes 21 staff members)

(2) Support

- ① Personnel Support (Student Volunteers volunteer interpreters, etc.) When teams come for pre-training camps, many volunteers participate to provide support with interpretation, stadium Management, and more.
- ② Medical Care We prepared to provide emergency medical care in case of injury or other medical emergency that the team doctor is unable to address, in cooperation with hospitals that can provide care in English.
- ③ Excursions and more

As part of showing our hospitality to the national teams and to help the athletes to relax, we can plan a variety of different short trips and tours. The options include experiencing local history and traditional culture, going for swims in the beautiful waters of Seto Island Sea, facilitating interactions and cultural exchange with local residents, and more.

5 Accommodation and Areas of Interest

Hotel Name	Transportation Time from the Stadium	Transportation Time from Takamatsu Airport	Number of Rooms	Rate (Example of the past camp)	Other Facilities

Governor of Kagawa Prefecture Keizo Hamada

Greeting from the Governor

Kagawa is located in the north-eastern corner of Shikoku, one of the four main islands of the Japanese archipelago. Facing the Seto Inland Sea, which has been dubbed the "Jewel of the World", Kagawa is blessed with a warm climate, few natural disasters, and an abundance of nature.

13 flights a day connect Takamatsu with Tokyo Haneda Airport with an additional 2 services running to Tokyo Narita Airport. With flights lasting approximately one hour, Takamatsu benefits from excellent transport links with the capital. (As of March 2016)

Up until now, Kagawa has held many training camps for international tournaments and we have received overwhelming praise from the members of various participating athletics teams. Athletes have stated that the training camp in Kagawa put them in a positive physical and mental state for their forthcoming events.

One of Japan's exceptional sites for training camps

Main Stadium

Pikara Stadium (Kagawa Prefectural Marugame Stadium)

·2008 Beijing Olympics

3 Events Hosted

·Canoe Sprint International Participant Tryouts (2012–2015)

General Description

This location has received certification from the Japan Canoe Federation as an A-level course. We have hosted training camps and international tournaments for the Asian region, and we are one of the few locations to host national tournaments every year.

The surface of Lake Fuchu is flat all year-round and the lake itself is surrounded by nature making it the perfect location for training or conducting competitive events. Our on-site canoe training center is also equipped with Ergo machines for canoeing practice.

Introduction of Facilities

Shikoku Coca-Cola Bottling Stadium Marugame (Marugame Municipaity Baseball Stadium)

Facility Specifications

I The Grounds

- ·Center: I22m Wings: I00m Area: I2,800m
- ·Infield: Black dirt Outfield: Natural grass (overseeded)
- · Foul territory: Artificial turf
- •Night lighting: 6 pillars (Infield 1,500lx / Outfield 800lx or more)
- ·Scoreboard: LED full-color screen (16m x 6m)

2 Seating

- ·Total accommodation: 10,000 people
- ·Main stands: 3,000 people ·Infield: 2,000 people
- ·Outfield: 5,000 people
- ·Right field: Picnic deck Left field: Grass lawn

3 Main Facilities

·Indoor practice field, bullpen, training space, practice swing area, player locker room, showers, conference rooms, etc.

General Description

In March 2015, a fully-official baseball stadium - suitable for professional matches - was opened in Marugame Sports Park. The outfield is natural grass overseeded with newly grown Tifton in summer, and strong ryegrass in winter, so that teams can play on green grass all year round.

For the mound and the batter's box a clay, similar to that of American ballparks, is used making it suitable for international

Indoors, there are 6 bullpens and a practice field allowing teams to continue practice even during bad weather.

Doio # 2 (For Judo)

Yashima Athletic Stadium*

Planned Facility Specifications

I Main Stadium

- · Athletic events available: Track & field events, soccer, rugby, and more
- ·Building area: 16,207m ·Track circumference: 400m
- ·No. of lanes: 8 lanes ·JAAF-certification: Class 2
- ·Other: Barrier-free access

2 Indoor Event Space (below the stands)

- ·Official pole vault area ·Pole vault practice area
- ·Long jump / triple jump practice area
- ·Rain-weather track area

3 Auxiliary Stadium

- · Athletic events available: Track & field
- ·Track circumference: 200m ·No. of lanes: 6

General Description

We are currently working on the Yashima Track & Field Stadium and plan to have it ready for operation by spring 2017. Giving ample consideration to barrier-free access, we are preparing it as a JAAF Class 2 track & field stadium so that everyone can enjoy using it safely and easily.

The stadium also features a certified indoor pole vault area and an all-weather practice field with the same curved running lanes as an outdoor track. In addition there are also natural grass fields suitable for rugby and soccer. These are linked to the outdoor track making it the first such facility in Japan and an ideal venue to conduct an athletics camp.

***Tentative Name**

General Description

Kagawa Sports Park is a comprehensive sports complex with 2 baseball fields, 2 soccer fields, and 20 tennis courts, all encompassed by exquisite nature and flanked by the sea and mountains on either side

Both soccer fields are natural grass fields, suitable for rugby as well as soccer. Also, they can be easily accessed from nearby the Takamatsu city, which features numerous hotels and accommodations.

Map of Kagawa

A stress-free and easy access training camp environment

Overview of Kagawa prefecture

Comfortable access to major cities

Transport Infrastructure

Kagawa has a long history as the "Gateway to Shikoku." In addition to the ten or so daily domestic flights between Kagawa and Tokyo, there are regular international routes operating between Kagawa and Korea-Inchon International, Shanghai Pudong International, and Taipei Taoyuan International airports.

Additionally, the Seto Ohashi Bridge, connecting Honshu with Kagawa's Sakaide City, is one of the world's largest road-rail bridges at 13,100m in length providing stress-free access to Kagawa by bus or train from Kansai International Airport, the major airport of East Japan.

Comparison of climate between Kagawa and Tokyo

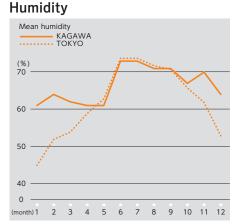

Average values for the last five years (2011–2015)
Source: Website of Japan Meteorological Agency

Climate

about 3 hours

Kagawa Prefecture is blessed with the gentle climate of the Seto Inland Sea area which boasts little precipitation and warm weather all year-round. For this reason, Kagawa's climate is said to resemble that of the Mediterranean and is even home to the birthplace of Japan's first olive cultivation space – Shodoshima Island, found in the middle of the Seto Inland Sea.

Hours of sunlight Mean hours of sunlight

National and internationally praised local foods

Food Culture

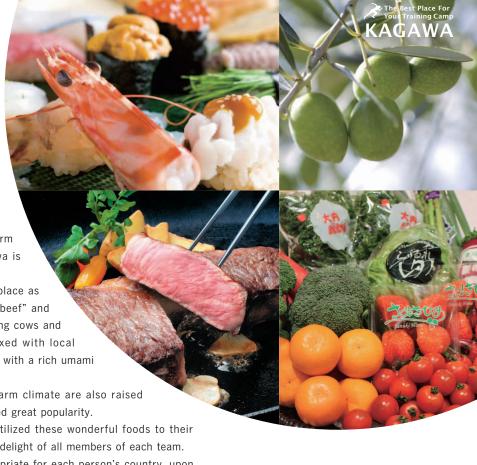

Located alongside the Seto Inland Sea with its warm weather and quiet, yet fast flowing tides, Kagawa is richly blessed with a range of cuisine.

One type of local specialty, born from Kagawa's place as the cradle of olive cultivation in Japan, is "olive beef" and "olive yellowtail" – respectively produced by raising cows and yellowtail on a diet of specially-made feed mixed with local olives. This process results in highly popular meat with a rich umami flavor that is still light on the tongue.

Additionally, the vegetables and fruits of this warm climate are also raised with tender care by local farmers and have received great popularity.

In previous training camps held in Kagawa, we utilized these wonderful foods to their fullest and provided athlete-oriented meals to the delight of all members of each team.

We also make every effort to prepare meals appropriate for each person's country, upon consultation.

Plenty of sightseeing spots nearby to relieve you after training

Sightseeing Spots

There are many places of historical interest in Kagawa, in addition to the graceful landscapes of the Sanuki Plains and the islands of the Seto Inland Sea.

Ritsurin Garden, which has been recognized by Japan as a Special Place of Scenic Beauty, has also been praised abroad, earning 3-stars in the Michelin Green Guide Japan, its highest rating.

Another popular sightseeing spot is Marugame Castle, which features Japan's tallest stone wall currently in existence. The exquisite curve it forms is lovingly called "Ougi no Kobai" which means the shape of a folding fan.

Kagawa is also home to historical sites that continue to maintain Japan's traditions even today, including Kotohiragu Shrine, where believers have come to pay homage to the god of the sea since ancient times, and the 88-temple pilgrimage route with the especially noteworthy Zentsuji Temple which dates back I200 years.
